

Communicate with, configure and monitor HART® smart devices in safe and hazardous areas

MTL4840 Series

- ◆ **SIL3 rating**
- ◆ **Connect up to 7936 loops to a single PC**
- ◆ **LED indication of loop being scanned**
- ◆ **Easily scalable modular system**
- ◆ **Compact, ideal for new projects and upgrades**
- ◆ **Channel to channel isolation option**

The **MTL4840 HART® connection** system provides a simple interface between smart devices in the field and HART® instrument management software run on a PC.

The system is based on 16-channel modularity to provide a compact, easily configurable and expandable system. Using a standard RS485 serial link, up to 7936 individual HART® devices can be connected to a single workstation.

For the optimum solution, choose from a range of general purpose and IS termination boards. For maximum flexibility the BPHM64 HART® backplane locates an MTL4841 communications module and up to four MTL4842 interface modules. General purpose HART® connection units and IS backplanes are also available, each fitted with an interface cable for connection to the BPHM64 HART® backplane. MTL4841 and MTL4842 modules can also be located on HMU16 termination boards for general purpose applications or on BPMH16 / BPMH16U / BPSH16 / BPSH16-32 backplanes for IS isolator requirements.

The **DIN-rail mounting** HCU16 and HCU16AOHART® connect to 16 general purpose field instruments while maintaining channel to channel isolation. Resistor conditioning options are compatible with all I/O cards. It allows pass-through connections for transmitter power supply, input signal and common.

The **HCU16AO unit** includes HART® filters for I/O cards incompatible with HART® signals.

BPMH16/BPMH16U/BPSH16/BPSH16-32 backplanes with MTL4840 HART® modules fitted, connect either 16 or 32 IS field instruments. Adapter cards are available for the BPMH16U for easy integration to I/O cards and users have a choice of a DIN-rail mounting option.

Numerous features may be included in the connection units and backplanes, as required. Channel to channel isolation; resistors where required for HART® signal conditioning; and HART® filters for analogue systems where the output signal interferes with HART® data or becomes unstable with the presence of the HART® signal.

Customised backplanes and connection units are available to provide direct connection from DCS I/O cables, replacing the standard termination board.

MTL HART multiplexers are certified by BASEEFA as a safety related sub-system to IEC61508. See the SR Series Interfaces section of this catalogue.

MTL4840 SERIES SYSTEM DIAGRAM

MTL4840 SERIES MODULE SPECIFICATIONS

MTL4841 COMMUNICATIONS MODULE

Host system interface

RS485 2-wire multidrop
Up to 31 MTL4841 modules can be connected to one host station
Unit address: switch-selectable on top of module

Isolation

RS485 output isolated from backplane power supply

Serial communication parameters

RS485 Baud rate: 1.2, 9.6, 19.2, 38.4kbaud, switch-selectable on top of module
RS485 highway length: up to 1km

MTL system interface

Links with up to 16 MTL4842 HART® interface modules via interface bus on backplane/ribbon cable

LED indicators

Green: one provided for power and status indication

Power requirements

Powered from backplane
Power consumption
<1.0W

Instrument management software supported

See 'Instrument management software'

MTL4842 HART® INTERFACE MODULE

MTL systems interface

Links up to 16 loops via backplanes
Receives multiplexer control signals via interface bus from MTL4841 and selects one channel for communication

Unit address

Switch selectable on top of module

Interface bus

Total length of interface bus between module 1 and module 16 must not exceed 4m

LED indicators

Green: one provided for power
Amber: one to indicate unit is selected by MTL4841
Red: four to identify loop address

Power requirements

Powered from backplane

Power consumption

<0.1W

MTL4000 SERIES MODULES

(See 'MTL4000 Series' for detailed specifications and circuit diagrams)

MTL4041A: Current repeater, 4/20mA, passive input for smart transmitters

MTL4041B: Repeater power supply, 4/20mA, for 2- or 3-wire transmitters

MTL4041P: High power repeater power supply, 4/20mA, for 2- or 3-wire transmitters

MTL4044: Repeater power supply, 4/20mA, two channel, for 2 wire transmitters

MTL4046/C: Isolating driver, for HART® valve positioners

MTL4046P: High power isolating driver for HART® valve positioners

COMMON SPECIFICATION

(applies to all MTL4840 and 4000 Series modules)

Location of units

Safe area (MTL4840 can be located in Div2)

Long-term drift

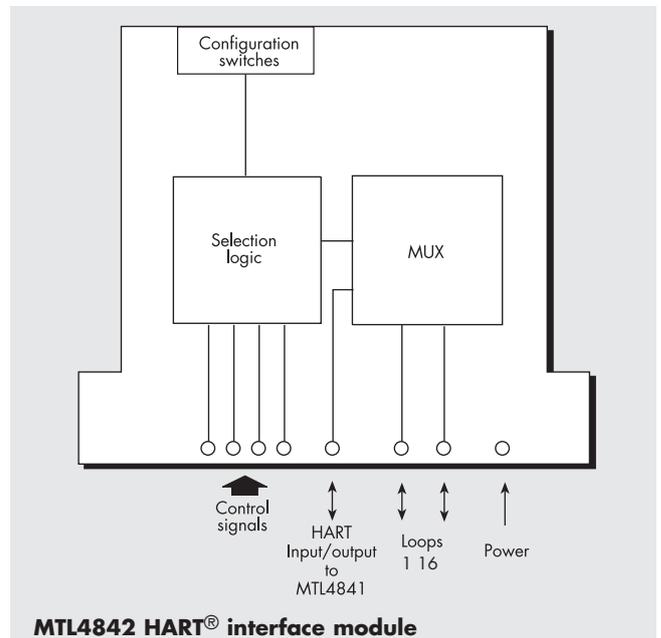

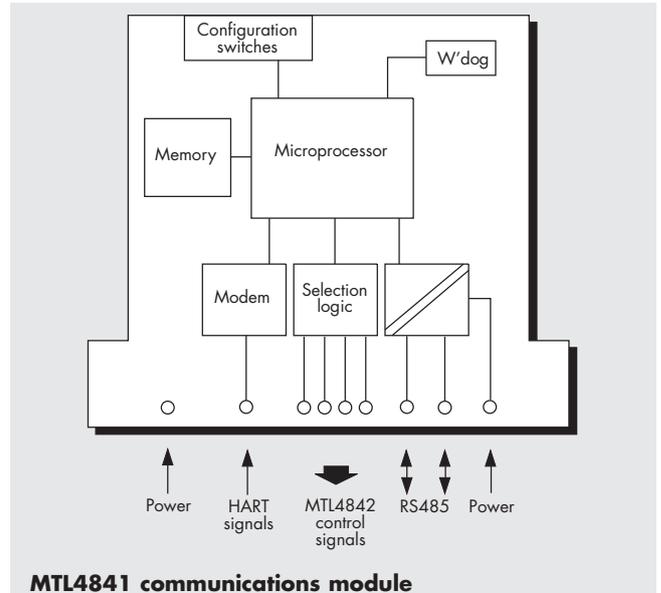

No recalibration necessary

Ambient temperature limits

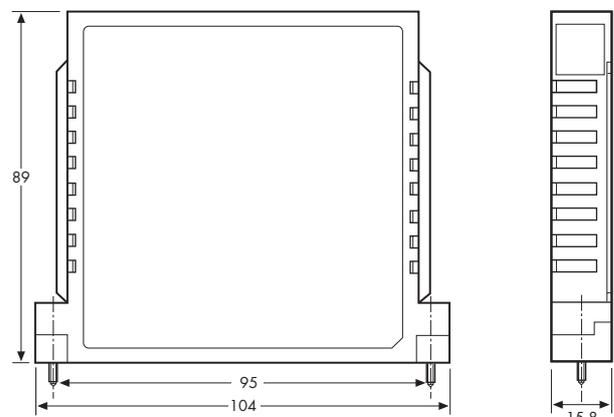

-20 to +60°C continuous working
-40 to +80°C storage

Humidity

5 to 95% RH (non-condensing)

DIMENSIONS (MM)

Mounting

On surface or DIN-rail mounted MTL or custom backplanes.
Mounting pitch 16mm

Weight

100g approximately

MTL4840 SERIES ORDERING INFORMATION

MTL4840 Series modules

MTL4841	HART communications module pre-configured for Cornerstone™ protocol
MTL4841-AMS	HART communications module pre-configured for AMS Intelligent Device Manager
MTL4841-PRM	HART communications module pre-configured for PRM
MTL4842	HART interface module (communicates with up to 16 loops)

General purpose connection units

BPHM64	64 ch HART backplane
HCU16	HART connection unit
HCU16-P250	HART connection unit
HCU16-S200	HART connection unit
HCU16-S150	HART connection unit
HCU16AO	16 ch HART connection unit
HMU16	16 ch HART communication unit

MTL4000 backplanes

BPMH16	16 ch backplane
BPSH16	16 ch backplane
BPSH16-32	32 ch HART backplane
BPMH16U	16 ch HART backplane

Backplane accessories

ERK18	Earth rail kit
TSK18	Tagging strip kit
ELC38	38-way Elco connector
FUS02	Fuse kit, pack of 10
FUS16	Fuse kit, pack of 10
VMPH16	Backplane mounting plate

DMK01	DIN-rail mounting kit
-------	-----------------------

SMS01	Surface mounting kit
HM64RIB10-xx	Ribbon Cable 10-way
HM64RIB20-xx	Ribbon Cable 20-way

Isolating interface modules and accessories

MTL4041A	Current repeater
MTL4041B	Repeater power supply
MTL4041P	High power repeater power supply
MTL4044	Repeater power supply
MTL4046	Isolating driver
MTL4046C	Isolating driver
MTL4046P	High power isolating driver
CCH01	Crimp connector header
CRC01	Large crimps
CRC02	Small crimps
SCC01	Screw-clamp connector
MPL01	Module position label, blank

THE COMPLETE SYSTEM

The following components form a complete system:

MTL4840 HART® connection system – provides simple connection to field instruments, using general purpose and IS termination boards.

Personal computer – running instrument management software and linked to MTL4841 HART communications modules by:

Converter – connecting the computer's RS232 port to the MTL4840 Series' backplane RS485 connector.

Instrument management software

HART interface connector
 No parallel resistor, 0Ω link fitted in series
 250Ω parallel resistor, 0Ω link fitted in series
 No parallel resistor, 200Ω resistor fitted in series
 No parallel resistor, 150Ω resistor fitted in series
 With HART filters

Safe-area multiway connector
 Safe-area screw-clamp connector

Requires backplane adapter card (call MTL for options)

For BPMH16 and BPSH16 backplanes
 For BPMH16 and BPSH16 backplanes
 For BPMH16 safe-area connection
 Protects MTL4841/4842
 Protects backplane module positions 1 to 16
 For DIN-rail and non-metallic surface mounting (BPMH16 and BPSH16 only)
 DIN-rail mounting kit, T- or G-section (pack of 40)
 16-way backplanes require 6
 Pack of 40 - 4 required for each backplane
 -xx specifies the cable length - max 4m
 -xx specifies the cable length - max 4.5m

4/20mA, passive input, for smart transmitters
 4/20mA, for 2- or 3-wire transmitters
 4/20mA, for 2- or 3-wire transmitters
 2ch, 4/20mA, smart, for 2-wire transmitters
 For HART valve positioners
 For HART valve positioners
 For HART valve positioners

Pack of 100

Pack of 100

Pack of 50
